WELCOME

The AXA Research Lab on Gender Equality welcomes you to the seventeenth issue of our monthly newsletter. At the Lab we aim to promote gender equality in the economic and social spheres through rigorous scientific methodologies. We carry out theoretical and empirical, high-quality research with a strong policy impact.

In this issue you will find highlights of the research we have produced during the past month. Our research encompasses a wide range of topics including gender economics, gender policies, gender diversity management, education, family dynamics, culture, politics, and women's empowerment. You will also find updates about events and our team.

We are happy to connect with you, for which we have left our contact information at the end of the newsletter.
